ROME, NY - Assured Information Security, Inc. (AIS, Inc.) announced today that Dr. John S. Bay has joined the company as Chief Scientist. Dr. Bay will define and direct AIS, Inc.'s robust research and development program. As a new corporate Vice President, Dr. Bay will also work closely with the executive team to solidify the company's long-term R&D strategy.

Mr. Charles Green, President of AIS, Inc. said, "AIS, Inc. has grown rapidly to employ nearly 100 highly talented computer scientists and engineers, and we are poised for the next level of growth. With the emphasis on cyber operations and defense, AIS, Inc. is in the right place at the right time with the right technology. To date, we have concentrated on the Air Force customer base. We plan to expand our presence with a wider variety of customers in the next phase of our growth. Dr. Bay will be critical in this endeavor."

Prior to joining AIS, Inc., Dr. Bay was a member of the Air Force's scientific and professional cadre of Senior Executives, and served as the Chief Scientist of the Information Directorate of the Air Force Research Laboratory, Rome, NY. The directorate is the Air Force center for the advancement and application of information systems science and technology. Before his career in the Air Force, Dr. Bay was a Program Manager in the Information Exploitation Office of the Defense Advanced Research Projects Agency, Arlington, VA; a tenured professor of electrical and computer engineering at Virginia Polytechnic Institute and State University, Blacksburg, VA; and an Engineering Fellow at the Raytheon Corporation.

AIS, Inc. is a small business focused on developing technologies and capabilities to support effective operations within and across the entirety of the cyber domain. AIS, Inc. is a leading pioneer and contributor in the disciplines of Cyber Security and Information Operations. Headquartered in Rome, NY, AIS, Inc., staffs additional offices in Washington, D.C. and Portland, OR.
